Why *Signature HomeStyles* works for women

FREEDOM AND FLEXIBILITY

Flexibility is perhaps one of the most appealing aspects that working from home provides. The freedom to choose when and how much to work is something that traditional employment does not offer.

FINANCIAL SECURITY AND CONTROL

Job security is a myth. Building your own business allows you to control your financial future. Whether you're using your business to create a savings cushion, to make ends meet or to replace a corporate income, Signature HomeStyles gives you options and the ability to take control.

TAX BENEFITS

OK, so perhaps tax benefits aren't the most exciting aspect of owning your own home-based business. But the allowable deductions can make a real difference in what your family pays in taxes each year. From deducting utilities from a portion of your home (if you have a designated office space) to supplies and mileage, the savings can add up. Be sure to check with a tax advisor who specializes in home-based businesses for the latest in acceptable deductions.

RECOGNITION

When was the last time someone cheered when you walked in the door at work? Recognition is something that is practically nonexistent in an adult's day-to-day

life...but not if you're part of an industry that excels at praising its workforce. Being recognized for efforts and achievements is an integral part of the Signature HomeStyles experience.

PERSONAL GROWTH

Owning your own business, and being part of a direct selling business in particular, fosters the need for continued personal growth. From overcoming personal challenges such as shyness to discovering how to make the most of your best character traits, Signature HomeStyles provides a forum for astounding personal growth.

SOCIAL ASPECT

Women of every age enjoy the relationships that are developed through their home-based business. It's not just moms with small children who crave interaction with other adults, but also retirees who want to remain active and even women who are new to a location and want to meet new people. Signature HomeStyles offers a community of positive interaction for all women.

NO LIMITS

When you're employed by someone else you rely on them to give you a raise. When you're the boss...you decide! Signature HomeStyles offers representatives a chance to set their own goals, dream big and create the life they want with no restrictions on territory or income. Perhaps that's one reason women are choosing this alternative career path over the corporate world.
